Product Advisory Note:
Ensure the subfloor is clean, dry, smooth, level, dust-free, and stable before installation. Any uneven areas should be rectified before fitting. Carpet should be installed from the same dye lot and laid in the same direction to reduce shade variation. Apply seam sealant where required to prevent fraying. Actual colours may vary slightly from samples due to dye lot differences. Chair pads are recommended to reduce carpet wear, especially under office chairs.

Ideal for Residential & Medium Commercial Use in Bedrooms, Living Rooms, Dining Rooms, Hobby Rooms, Home Offices, Hallways, Exclusive Boutiques, Branded Shops, Jewellery Shops & More.
