

SUPER SPORTS

Shock absorption

Absorbs impacts from jumps and protects the joints and muscles involved, making exercise a more comfortable and enjoyable experience.

Vertical deformation

Excellent power return enables athletes to increase their on-court performance. Superior vertical stability eliminates "area" indentation.

Superior ball bounce

A good sports floor has identical ball bounce in all areas and all across the floor.

Sliding properties

Optimal slip coefficient offers natural grip avoiding falls and accidents, provides a safe playing surface.

Education

③ Reinforced woven fiberglass inner layer
This provides even greater indentation resistance and shock absorption while increasing the overall durability of the surface complex.

① Easy maintenance
PVC coating provides excellent resistance to dirt buildup while providing a durable surface that's easy to maintain.

② 100% vinyl wearlayer
Superior durability and the sports floor life expectancy is 15 years above.

④ Closed cell foam backing
Excellent shock resistance. Superior stability, no shifting underfoot. Good energy return for extended activities.

SUPER SPORTS

Super Sports is a multi-purpose PVC sports flooring that has been designed to accommodate a wide range of sporting events. Super Sports is available in four thicknesses to satisfy varying degrees of shock absorption and performance requirements adapted to all levels of sports.
