LVT

Our Luxury Vinyl Tile

VOXFLOR®
passion and purpose

00.

OUR GOAL

Luxury Vinyl Tile (abbreviation: LVT)
is known **as stone plastic or PVC flooring**. It is made of polyvinyl chloride or vinyl resin and is added to the appropriate stone powder additive for the floor (or wall) decoration in the building.

Commercial spaces are not defined by carpet tiles alone. To meet the diverse needs of clients for hard and semi-hard flooring, **VOXFLOR offers a curated selection of LVT**. This **enhances its soft flooring solutions** with natural, vibrant patterns, providing a complete, integrated flooring proposal.

ABOVE WOODS

Wood patterns and colors bring a warm, inviting atmosphere to any interior, offering endless possibilities for designers to incorporate them in unique and creative ways.

Distance changes utterly when you take the world on foot. A mile becomes a long way, two miles literally considerable, ten miles whopping, fifty miles at the very limits of conception. The world, you realize, is enormous in a way that only you and a small community of fellow hikers know. Planetary scale is your little secret.

Wood is universally beautiful to man.
It is the most humanly intimate of all materials.

BEYOND STONES

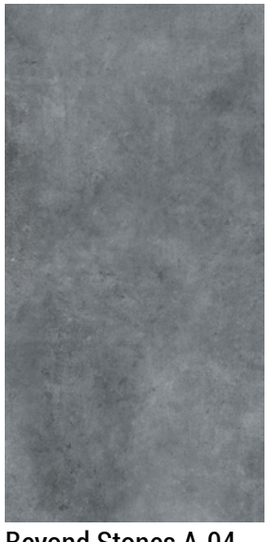

Life is fleeting and delicate, while stone stands timeless and enduring. Experience the beauty of these stone textures, here for you to explore.

No better way is there to learn to love Nature than to understand Art. It dignifies every flower of the field. And, the boy who sees the thing of beauty which a bird on the wing becomes when transferred to wood or canvas will probably not throw the customary stone.

AFTER HUMAN

In the previous chapters, we showcased various elements that evoke nature through their textures. In addition to these, we have created the After Human collection.

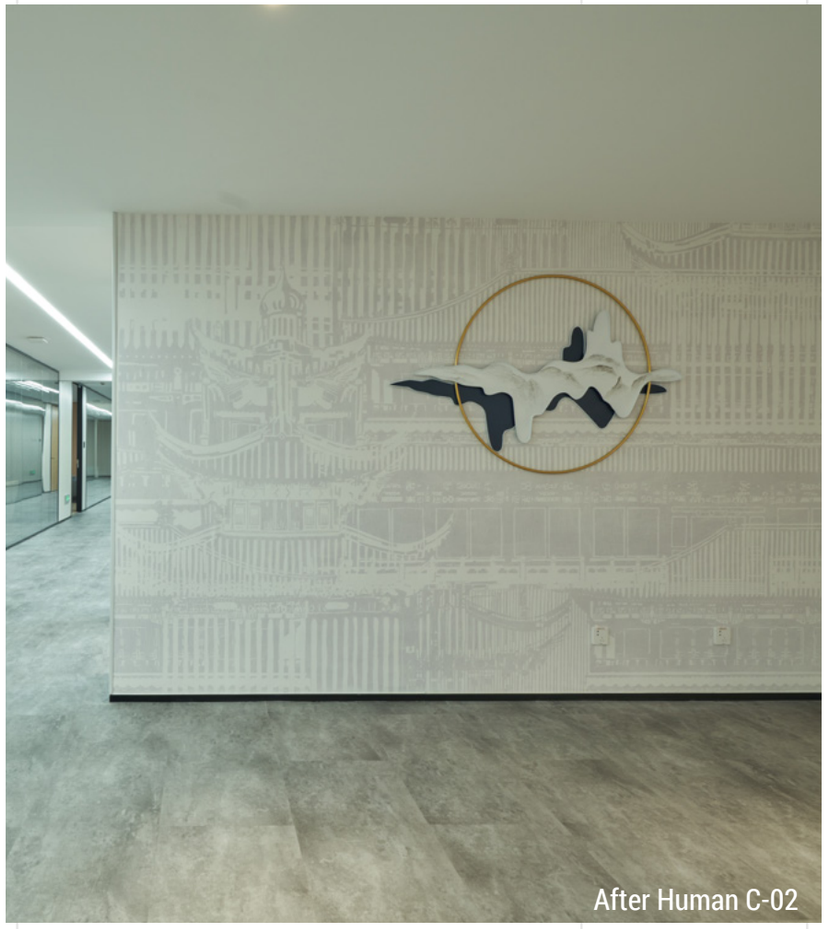

Here, we present a pattern that you may have encountered frequently in interior materials. It's polished, artificial, and crafted entirely from luxury vinyl tiles.

A painter makes patterns with shapes and colours, a poet with words. A painting may embody an "idea," but the idea is usually commonplace and unimportant. In poetry, ideas count for a good deal more; but, as Housman insisted, the importance of ideas in poetry is habitually exaggerated. … The poverty of ideas seems hardly to affect the beauty of the verbal pattern. A mathematician, on the other hand, has no material to work with but ideas, and so his patterns are likely to last longer, since ideas wear less with time than words.

After Human B-07

"Stone, steel, dominions pass,
Faith too, no wonder;
So leave alone the grass
That I am under."

— A.E. Housman, More Poems

UPON COLORS

Color is a **power** which **directly influcences the soul**. So we offer some **colorful alternatives** to expand your design options.

Upon Colors is your ultimate LVT color palette, featuring eight rich hues, from bold brights to versatile neutrals. Its delicate plaster grain texture adds depth, seamlessly coordinating with VOXFLOR's LVT and carpet tile ranges. Designed in a Planks format with its subtle organic pattern, it brings energy and movement to any space. A fresh, vibrant alternative to standard LVT, Upon Colors, is perfect for creating dynamic, modern interiors that make a statement.

FEATURES & CONSTRUCTION

LVT is defined as **a semi-rigid polyvinyl chloride block floor** under nation standards.

LVT is defined as **resilient floor coverings** under international standards.

A hard surface option which can be, for laying system and thickness, perfectly combined with carpet tiles. LVT is the latest generation of vinyl flooring, the acronym stands for Luxury Vinyl Tiles and offers several options of colors, patterns, and finishings in order to extend and multiply our offer according to the latest trends.

LVT
FEATURES

Safety and environmentally friendly

Wear-resistant and pressure-resistant

Easy to pave

Suitable for floor heating

Super anti-skid

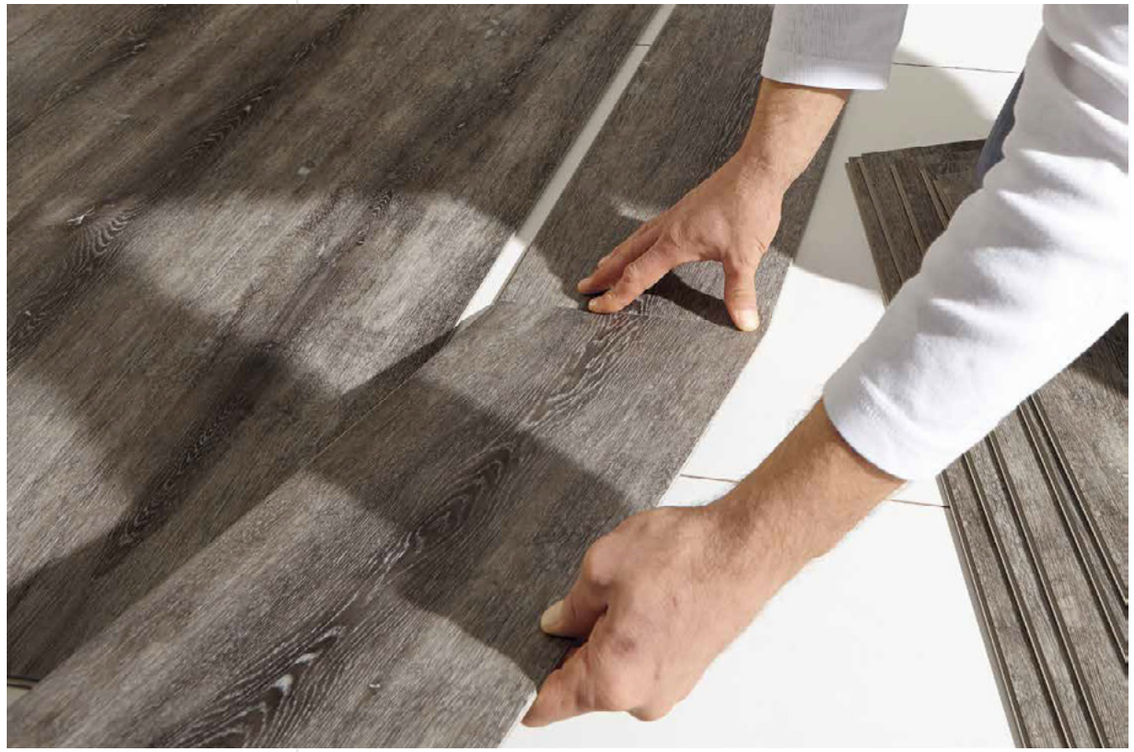

Ultra-light and ultra-thin

Fire-retardant and fire-resistant

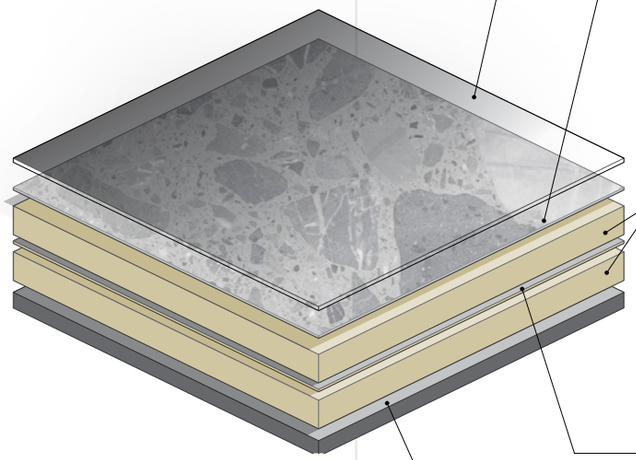

Stain Resistance

Sound absorption and noise reduction

Stylish and diverse

LVT
CONSTRUCTION

1. UV Shield & Wear Layer

Made to resist against stains, scuffs and scratches. It offers high performance of usage

2. High Resolution Print Film

Represent vivid colors and patterns that have the design gene from VOXFLOR®, which match our carpet tiles perfectly

3. Core Stabilization Sheet

Designed to provide dimension stability and give consistent product thickness

4. Grid Work

The fiberglass material encapsulated between two PVC layers, provides strength and flexibility

5. Emboss Wave Backing

Solid Backing made to provide foundation strength, stability and ease of installation

06.

INSTALLATION METHOD

LOOSE LAY

Suitable for **thickness of 4.5~6mm**, **high-end products**, **contains fiberglass mesh inter-layer**.

General demand; Easiest way where glue is not needed; In some cases glue might be applied to the tile four corners.
